

CRACKING THE CODE ON THE BOXED CMF SERIES

The new CMF boxes have been met with some big feelings from LEGO fans.

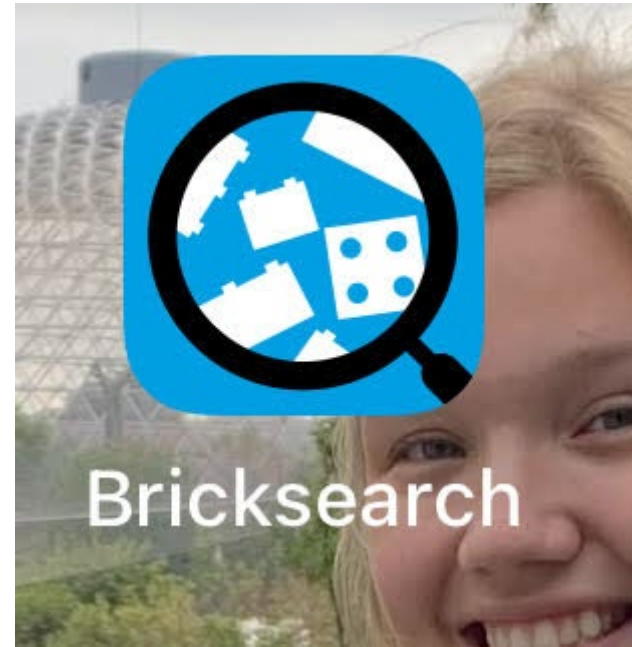

Interesting ways to check contents.

The big QR codes I found matched 100%. I did find some of them would not sca for me, but maybe if a try a QR scanning app it will work better. I also wanted to gather all the found codes in a single list. I am also going to throw in approximate weights, remember that your scale will also have some type of error range.

1. 6471965 - Film Noir Detective - 18.49g
2. 6471969 - Black Falcon Gamer Girl - 17.71g
3. 6471970 - Vampire knight - 19.64g
4. 6471966 - Sprinter -17.39g
5. 6471962 - Goatherd - 20.0g
6. 6471961 - Mushroom Sprite - 17.88g
7. 6471960 - Fitness Trainer - 17.3g
8. 6471968 - Triceratops Costume Fan - 17.78g
9. 6471963 - Harpy - 18.04g
10. 6471964 - Train Kid - 21.72g
11. 6471959 - Barbarian - 17.0g
12. 6471967 - Pet Groomer - 18.67g

I found these in a toy store in San Diego California and there was a mix of big and small QR codes..
